Introduction to Python  
Fundamentals

Introduction to Python  
Functions

Python Packages for Data  
Science

University  
of Colorado  
Boulder

21-Nov-2023

**Hamza Shafiq**

has successfully completed the online, non-credit Specialization

# Expressway to Data Science: Python Programming

In this specialization, learners gained fundamental knowledge of Python programming, including variables, operations, flow control, functions, and function creation. Learners experienced and practiced widely used Python packages for Data Science, such as NumPy, Pandas, Matplotlib, and Seaborn. Expressway to Data Science: Python Programming is an excellent resource for learners preparing to complete CU Boulder's Master of Science in Data Science program.

Di Wu  
Instructor  
Data Science

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
